- Sales Tax, Octroi, Insurance and other Government Levies will be charged extra as applicable
- Prices are subject to revision without any prior notice
- Material will be supplied as per unit of pack only
- All legal proceedings are subject to Mumbai Jurisdiction

Prologue

Magicut established in 1982, is leader in the field of Cutting Tools. Magicut has since gradually evolved into manufacturing a wide range of Hand Tools and Power Tool Accessories as well.

Magicut's origins go back to 1948 when the founder, Late Mr. R.C. Gupta opened a Hardware retail shop and a few years later started wholesaling as well. In 1963 he started his first factory for Engine Bearings and gradually expanded to manufacture a variety of products such as Bearings, Diesel Engine Spares, Copper Alloys and Cutting Tools. Over the last 69 years, though diversification took place, the focus has never shifted away from Engineering.

Today Magicut's portfolio includes Hand Hacksaw Blades, Junior Hacksaw Blades, Hacksaw Frames, Bandsaw Blades, Power Hacksaw Blades, Hole Saws, Reciprocating Saw Blades, Tool Bits and Cut-off Blades.

Plant

Magicut boasts of state-of-the-art manufacturing and testing facilities and is certified to ISO 9001:2008 by BSI UKAS ensuring that only quality products reach its customers continuous up-gradation has seen us installing state-of-the-art equipment across our products. All tools are heat treated in atmospheric controlled furnace with

Inspection

Magicut is equipped with the most modern and precise testing equipments, that are periodically calibrated. The products are made from the finest grades of imported high speed steel. Our well equipped laboratory then tests these surface finish, for physical appearance, surface finish

Packaging

After checking that all products meet the set quality standards, they are packed and ready for dispatch. Extreme care is taken to ensure that the products reach their destination in perfect condition. The company has introduced Revolutionary Packaging for our range of products where these are segregated by colour.

Magicut Headquartered in Mumbai, India with its plant at Daman from where it is offering a comprehensive range of Tools, all from a single source. Along with an extensive domestic sales network it has satisfied the need of numerous, diverse customers across the globe in Europe, Middle East Asia, Asia Pacific and America's.

The company has gained a wealth of experience covering the manufacturing of variety of products and has always kept pace with the rapid developments of the modern high technology production techniques.

Magicut's success has hinged upon its ability to consistently deliver standard quality and timely execution of delivery schedules. We continue to maintain and continuously upgrade the quality of our products so as to maximize customers delight and future growth.

modern timers and temperature controllers that are strictly calibrated periodically to ensure correct heat treatment of tools with no decarb. Magicut has further incorporated the technologically advanced U-Line production process and is amongst the first in the Saws industry to use this concept.

dimensions and other variables. Before processing of the raw materials a whole battery of tests, from checking of chemical composition to microscopic tests for carbide distribution are carried out. Every tool we supply passes through stringent inspection tests.

This is only available with FMCG products and we are amongst the first company's in the world to introduce this in the Tool segment. Furthermore Magicut is the first company introduced Retail Packaging for Hand Hacksaw Blades and this is now extended to other products as well.
