

**UNIVERSAL BEVEL PROTRACTOR  
& PRECISION LEVEL**

# Universal Bevel Protractor / Precision Level

## UNIVERSAL BEVEL PROTRACTOR

### FEATURES

- High precision instrument for accurate angle measurement of machined components and tool room application.
- Made of hardened stainless steel.
- Supplied with 150 mm and 300 mm blades.
- Supplied with acute angle attachment.
- Supplied with magnifying glass for better readability.
- Can be attached to height gauges for easy and quick measurements.

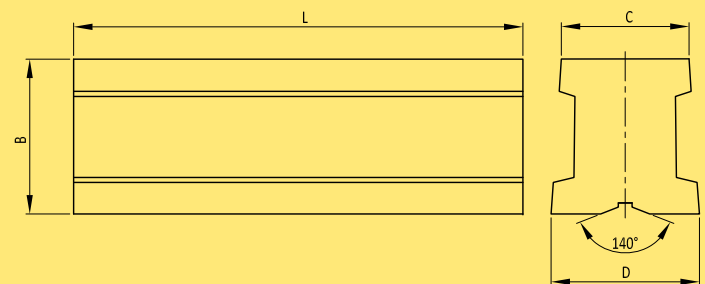

### SPECIFICATION

- Graduation : 5'
- Measuring Range: 0-360° (4x90°)
- Accuracy: 5'

### OPTIONAL ACCESSORIES

- Holder for height gauges

## PRECISION LEVEL

Model No	L	B	C	D
BSL 150	150	46	40.0	44.0
BSL 200	200	46	40.0	48.0
BSL 300	300	46	40.0	48.0

Model No	Sensitivity (mm/m)
BSL 150	0.02
BSL 200	0.02
BSL 300	0.02

### FEATURES

- Made of high quality cast iron
- Measuring faces are lapped to a fine finish to maintain precision
- With longitudinal and transverse bubble.
- Accuracy of the main bubble: 1/10<sup>th</sup> of the nominal value of a scale division
- Supplied with calibration certificate
- Supplied in wooden box
