

CODE U1313
UNIQUE MECHANICAL BOOSTER POWER VISE
(HARDENED GUIDE WAYS)

FEATURES

- High quality FCD 60 vise body, with flame hardened guideways for better wear resistance.
- This vise uses an internal mechanical system to amplify the force applied by the operator's handle, which allows for extremely high and consistent clamping pressure with minimal effort.
- Toggle joint mechanism provides a steady clamping force against shocks and vibrations during machining.
- Quick clamping and locking of the piece to be machined.
- Accuracy in squareness is ± 0.01 mm / 100 mm.
- Accuracy in parallelism is ± 0.01 mm / 100 mm.
