

CODE U355 UNIQUE PRECISION DUAL STATION VISE (HARDENED GUIDE WAYS)

FEATURES

- Two different / same sized workpieces making fast production of parts possible.
- Clamping force equalization mechanism ensures that both workpieces are clamped with equal force.
- High quality FCD 60 vise body. Both the vise bed and the Jaw plates are hardened and precision ground.
- Fixed Center jaw has a machined keyway with H7 tolerance for accurate alignment.
- 5 Different clamping configurations possible, as shown in Setup Options
- Accuracy in squareness in within $\pm 0.02\text{mm} / 100 \text{ mm}$.
